To Whom It May Concern:

Seth Brower provided professional timing for the Luke's Locker Summer Track meet series during 2012. He timed a total of 5 meets, set up a camera photo finish, printed out results, secured volunteers and USATF Officials, and provided meet supplies. He is the most knowledgeable Track and Field person I have worked with and was accommodating with our schedule. He always arrived early and stayed late to assist with meet set-up. Seth helped Luke's find a location for the meets and was frequently available for meet management questions. He is an excellent resource and communicates in a professional and friendly manner.

Seth worked for an estimated 60 hours with Luke's and did it at a fraction of the cost compared to what meet management and timing would normally cost. He did this for the love of the sport and so the athletes did not have to pay high entry fees. He is truly a fan of track and field and a great ambassador for the sport. He cares more about the athletes and the sport than himself. He is a joy to work with and we learned valuable track and field and meet management information. I would recommend Seth Brower for meet management, timing, or any other track and field related event consultation above anyone else in Texas! We (Luke's Locker) were fortunate to secure him and would be honored to work with him again.

Sincerely,

Jennifer Harney
